

SUMMARY

Digital marketer who builds what I strategize — from landing pages and display ads to brand systems and conversion-focused creative. I bring a rare combination of hands-on technical execution (HTML, CSS, Shopify) and performance thinking, using GA4 data to drive real decisions across paid, email, and web campaigns. I care about the whole funnel, not just the top of it.

EXPERIENCE

National Business Institute

Digital Marketing Specialist
Feb 2026 – Present

- Build and manage campaign landing pages and web forms across email, paid media, search, and website initiatives
- Test and refine page layout, messaging, and CTAs to improve engagement and conversion
- Create and maintain multi-size display ad sets and promotional graphics for marketing campaigns
- Manage and publish organic social media content across company channels

Marketing Analyst
Dec 2023 – Feb 2026

- Monitored website and campaign performance across channels using GA4 and reporting dashboards
- Contributed to company rebrand and Shopify migration — page QA, content migration, and site updates
- Translated performance data into actionable recommendations for page and campaign improvements
- Compiled and organized landing page reporting to support ongoing campaign optimization

Marketing Intern
Jun – Dec 2023

- Assisted with campaign setup, website updates, and general marketing support tasks
- Uploaded and formatted blog posts and resource content on the website
- Organized and maintained marketing content and asset libraries

Molcurphotos

Freelance Photographer
Jan 2019 – Present

- Plan and direct portrait and editorial shoots from concept through execution
- Retouch and color-grade using Adobe Photoshop and Lightroom
- Design and maintain personal portfolio site with SEO-focused content
- Published in 30+ magazines and online features
